

# Annual Report 2021-22

# About **Sewa International**

*Sewa International is an organization with a mission to nurture institutions of social impact and serve humanity. In our two decades of work, we have worked across the length and breadth of the nation to inculcate the spirit of Sewa as a means for societal transformation or Parivartan. Our direct projects span across India, and globally across 25+ countries as the 'Sewa' movement.*

## **Vision**

*Sewa International as a premier non-profit, would live in a world of equality, where everyone is happy, enjoys good health, has equal growth opportunities and lives in balance with nature. In the event of any disaster, Sewa International will be called in and be among the first to serve.*

## **Mission**

*Sewa International serves humanity in distress, aids local communities, and promotes volunteerism. We engage our beneficiaries to be agents of change in development and strive to make progress broad-based.*

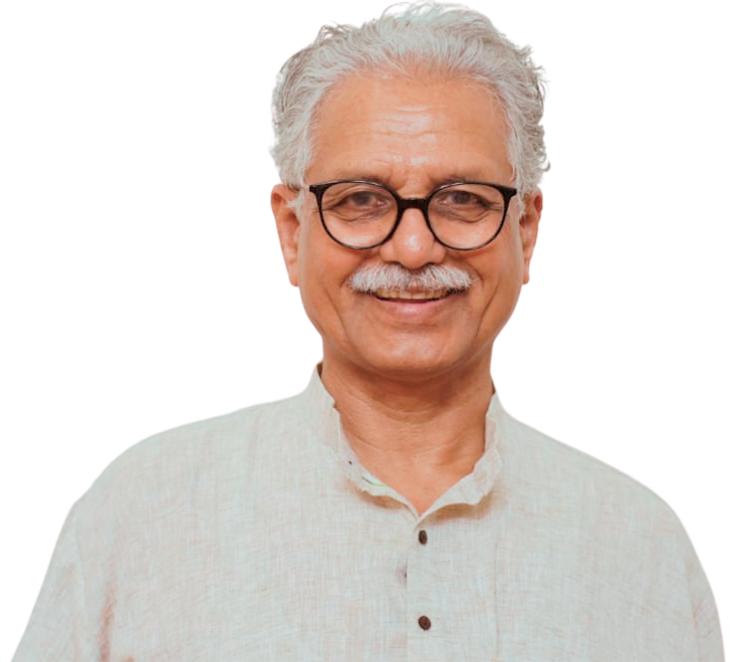

# Secretary General's Note

"It is a privilege to serve mankind, for this is worship of God. God is here, in all these human souls. He is the soul of man."

- **Swami Vivekananda**

Sewa International is based on the principle of "**Sewa Hi Parmo-Dharma**", which means "**Service is the Highest Religion.**" As we commemorate 25 years of service, our presence is felt in more than 25 countries. Started with disaster management, Sewa International expanded to address every aspect of relief and rehabilitation, including healthcare, agriculture, livelihood, education, and the environment.

Future generations will remember that countries with sophisticated medical equipment and world-class medical facilities were short on ventilators, medicines, doctors, and hospitals when a deadly pandemic hit. We have served with humility and dedication during and after the pandemic to create a world with a vision of healthcare for all.

This year, we have laid the foundation of the much-awaited Centre of Excellence at Deen Dayal Upadhyaya Marg, ITO, New Delhi. Shri Hardeep Singh Puri, Minister of Petroleum and Natural Gas, Housing and Urban Affairs, and other dignitaries graced the occasion with their presence. This centre would serve as the headquarters for all national and global Sewa International associates.

A couple of conferences opened the doors of new reflections for us. At the disaster management conference, extremely experienced panellists graced the sessions with their knowledge, which broadly encompassed disaster management before, during, and after a disaster to envision the development of an ethos of prevention, mitigation, preparedness, and response. We realized that we still had a long way to go. Our initiatives, whether on disaster relief or livelihood and rehabilitation are nothing but stepping stones.

Looking back on 25 years of Sewa International, we are humbled as well as elated about our accomplishments. Our vision for the coming year is to impact 8 million people's lives through more initiatives for mankind. I would like to thank all of our partners, donors, and stakeholders for their ongoing commitment and support, which is critical for creating a sustainable society. The assurance of your support provides us with the necessary strength to innovate and deliver more.

# SAATH

SAATH (Supportive Action Across Telemedicine and Healthcare) is a public health initiative to enable access to best-in-class healthcare with telephonic and video-calling-based consulting.

Mobilization is essentially a process for reaching out to different sectors of a community and creating partnerships in order to focus on, and address specific community issues and generate awareness around it.

**27,134**  
Patients

**53,992**  
Calls

**72**

Participants

**40**

Distinguished panelists

Each aspect of disaster management from core to peripheral, from human-centric to technological intervention was discussed.

**Conference**

# DISASTER MANAGEMENT

Sewa International's humble journey in the field of social service began by providing relief during natural calamities and disaster-struck regions. Sewa International is blessed to pass on services as rescue, relief and rehabilitation to over 2 Million people in last 25 years.

We have been able to support and provide rescue, relief and rehabilitation during Flood/Cloud Burst, Earthquake, Tsunami/Cyclone, Disease outbreaks and Drought. From the Gujarat earthquake in 2001, Indian Ocean Tsunami in 2004, Uttarakhand floods in 2013, Chennai floods in 2015, Kerala floods in 2018, Cyclone fani in Odisha to the floods in 2019 across many states till prevailing Coronavirus disease outbreak situation, Sewa International volunteers have always been the first ones on the ground, rescuing and providing relief.

## Sewa In COVID-19

### Ration Kits

With the loss of livelihood or death of the sole earning member of the family, many were facing challenges to earn two meals a day. Under that circumstances, Sewa International took the initiative to help people with ration kits. We made sure that no one sleeps hungry during such a severe disaster.

**1,19,826**  
Ration kits

### PPE and Pulse oximeters

Grappling with the second wave of the pandemic, Sewa International observed the need for PPE kits and Oximeters for hospitals and general use. These pieces of equipment were essential to combat the early onset of the infection. A lot of patients had taken early prevention and detection measures and reduced the burden on the hospitals.

**1,96,000+**  
PPE Kits

**2,33,000+**  
Pulse oximeters

## Medical Kits

Medical kits (Aarogya Kits) were distributed during the second wave of COVID-19. The kits had generic medicines, thermometers, masks, and sanitisers that helped people stop the spread of COVID-19. A total of 1,35,366 medical kits were distributed throughout India.

**1,35,366**  
Medical Kits

*Medical kits empower people as well as healthcare infrastructure for basic cure of ailments.*

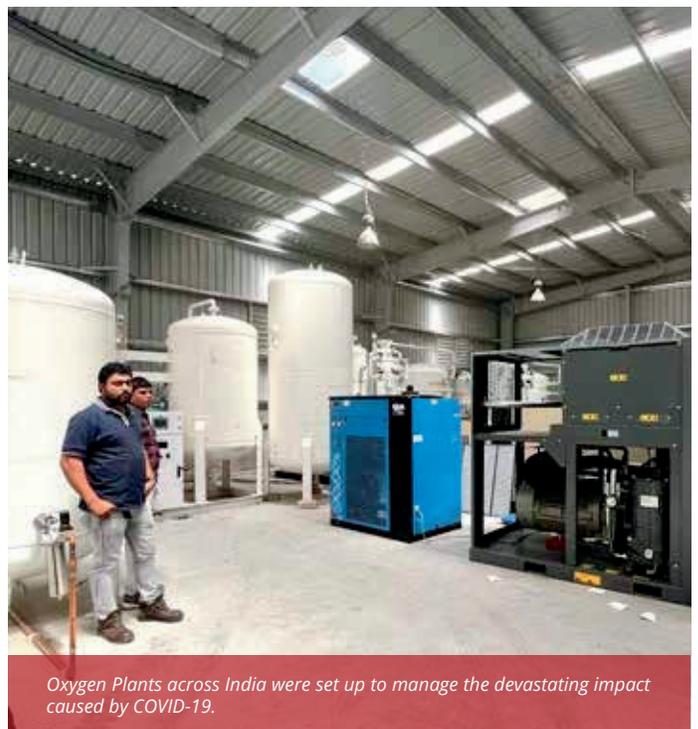

*Volunteers formed an essential part of the medical kits distribution.*

## Oxygen Plants

Horroric images of people running to procure oxygen cylinders were quite frequent at the time of the second wave of the pandemic. Sewa International had decided to install oxygen plants at different locations in the country. 32 oxygen plants were planned to commence with the support of Sewa USA, UK, Australia, and Canada. An oxygen plant is a technology that purifies and segregates up to 96% of the oxygen in the air which can further be used for various health purposes. Each oxygen plant is of a different capacity depending upon the requirement of the local population. Surplus oxygen can be used to fill up the cylinders to be circulated further.

**32**  
Oxygen Plants

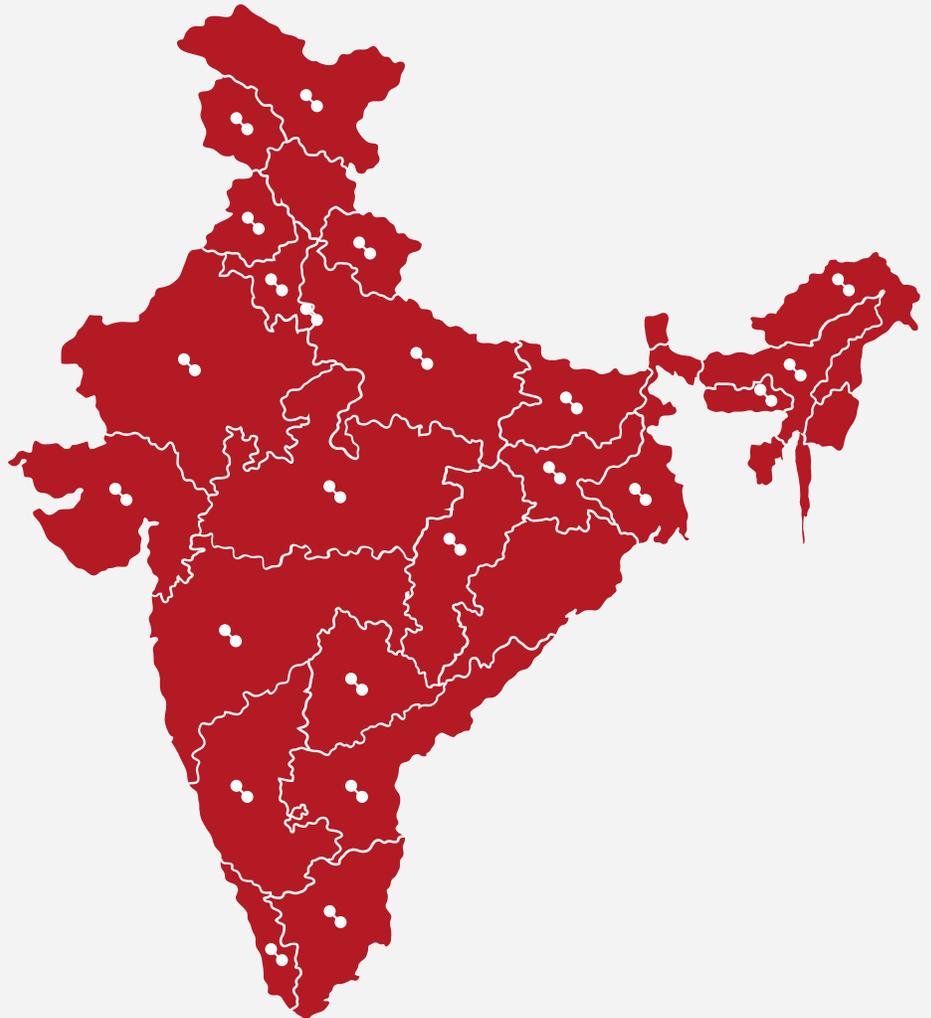

*Oxygen Plants across India were set up to manage the devastating impact caused by COVID-19.*

## **O2 Concentrators**

The shortfall in oxygen supply caused due to the surge in COVID-19 cases led to a panic situation in the country. This absence is particularly visible in hospitals around Delhi, Mumbai, and other big cities. Patients in home isolation suffered due to the cost of refilling a cylinder or renting an oxygen concentrator. Sewa International took the onus to tackle the situation by delivering oxygen concentrators throughout India.

**10,000+**  
O2 Concentrators

## **Creating an Impact**

Dipu Konwar, 35-year-old from Dolbagoan, Charaideo, Assam lives with his family. He persisted in fever and had a body ache. He had undergone an RT PCR test on 26th July 2021 and tested positive for COVID. As his health got deteriorated, he was admitted to the nearest COVID centre which was Assam medical college and hospital, Dibrugarh. Initially, he did not require oxygen and was discharged from the hospital. Later, he needed oxygen support as his condition degenerated. For his requirement of a five-litre external oxygen concentrator, he approached Sewa International. He had heard about Sewa International and its contribution to providing oxygen concentrators free of cost to needy patients. He was very satisfied with the process of getting an oxygen concentrator along with the quality of the concentrator. Mr. Dipu Kumar got teary-eyed while sharing his story. He was really obliged to Sewa International and he felt that Sewa had saved his life.

Sewa distributed oxygen concentrators throughout India so that oxygen shortage can be dealt with easily.

People groaning in pain due to lack of oxygen was a common sight during pandemic.

Oxygen concentrators proved to be a life saviour at the time of pandemic.

Minister of State for Finance of India, Sh. Anurag Thakur flagging off the distribution of oxygen concentrators.

## Ventilator support

A ventilator is a device that supports or takes over the breathing process, pumping air into the lungs. People who stay in intensive care units (ICU) may need the support of a ventilator. This includes people with severe COVID-19 symptoms. Sewa International's extensive distribution of ventilators had reduced the burden on the hospitals during the critical period of the second wave.

**329**  
Ventilators

During the second wave of the pandemic, ventilators distributed by Sewa International proved a blessing for the patients.

Sewa International was a part of extensive distribution of ventilators thus empowering hospitals.

## Digital Sewa

Sewa International undertook digital initiatives like web page, helpline numbers, and chatbox to serve the people during the second wave of the pandemic. We had received a number of requests from people all over the world.

## Digital Help Desk

To help people during the second wave of the pandemic, Sewa International opened a digital desk. Nearly 850+ inquiries were received about COVID infection. A total of 386+ volunteers with the support of 185 partner organizations ran a 24 hours helpline.

---

## covidsewa.com

covidsewa.com is a noble initiative to help individuals ask questions and raise requests during the time of the second wave. This portal is developed by Sewa International and Primathon Technologies, two organizations that are driven by social impact.

---

## e Global Doctors

To relieve the strain placed on the Indian healthcare system by the surge in coronavirus cases, the American Association of Physicians of Indian-Origin (AAPI) and Sewa International has partnered with E Global Doctors to provide medical advice for COVID-19 patients from India via teleconsultation. This online platform gave patients an opportunity to meet privately with volunteer medical professionals, who offered counseling services.

---

## Counselling services

COVID-19 induced fear, worry, and concern giving rise to anxiety, mental stress, and trauma in many people. Sewa International and 'ASK' Bangalore partnered to counsel the affected people. The counsellors were trained by the National Institute of Mental Health. This was an online service and could be availed by anyone across India.

## Blood donation, vaccination, and sanitisation

During the second wave of COVID-19, Sewa International organized a blood donation, sanitisation, and vaccination drive to curb the impact of the pandemic. A total of 4 blood donation camps were organized where 174 units of blood were collected. Nearly 100 volunteers sanitized 1173+ locations throughout India to stop the virus spread. Over 1800 people were vaccinated through a vaccination drive.

Sewa International organized blood donation drive during pandemic as shortage of blood was critical at that time.

**1805+**  
People vaccinated

**174**  
Units of blood

**1173+**  
Locations sanitised

## Vaccination Drives

Sewa International conducted vaccination drives with the support of Swathi Mahila Sangha and RV Aster in Karnataka and Delhi. In Karnataka, people from the transgender community, sex workers, and HIV-positive patients benefitted from the vaccination drive. Instruments like BP apparatus, Glucometer, Glucostrips, and ECG machine were also used during these drives.

Sewa International took onus to support healthcare infrastructure and people by vaccination drive.

**750**  
Direct beneficiaries

**5000**  
Indirect beneficiaries

## Tapovan Rehabilitation

The flash flood caused by the glacier burst in Tapovan destroyed the lives and livelihoods of numerous people. According to a survey, 290+ residents' livelihood was affected as the Dam sight work and agricultural activities were destroyed along the river valley. Many families lost their sole bread-earners as well as livestock. Sewa International was one of the first organizations to reach the site and support the rescue and relief operations. The project is a joint effort of Sewa International and Sewa International USA. Our long-term plan is to make positive impacts on the lives and livelihoods of the people of the affected villages.

Tapovan disaster claimed innumerable lives Sewa International recognised the urgent need of health initiatives.

Sewa International initiated the mission to nurture the lives of the people post Tapovan disaster.

To restore the education of the students post-disaster is of utmost importance.

Women were trained with equipment to reclaim their lives devastated by Tapovan disaster.

Fruit Processing can also be an alternative source of earning a livelihood.

## Mission Niramayah

Sewa International started Mission Niramayah, for the early detection, prevention, and treatment of COVID 19 among the rural population of India. Through this mission, Sewa International is promoting equitable access to healthcare resources.

### Border Security Force

Sewa International reached out to Border Security Force's heroes on the Indo-Pakistan border to distribute Niramayah kits over a distance of 1576 kilometres in Jodhpur, Barmer, Chohtan, Suigam, Rann of Kutch, Dholavira, Rapar, Deesa, Dantiwada, and Sirohi. Over 400 kits were distributed to border outposts in parallel with the wiring. Mrs. Parvati Jangid Suthar, also known as BSF's sister, spearheaded the initiative with the assistance of Mr. Mohan Suthar.

### Hifazat Initiative

Our team distributed Niramayah kits to Delhi police under the Hifazat initiative on the 9th of Feb 2022. The team went with 1100 kits to the DCP office, Dwarka where they met with DCP Shankar Chaudhary. He welcomed this initiative and said that this would help his fellow policemen from beat chowki, police stations, police desks, PCR, etc. to curtail COVID infection.

### Volunteer Drive

A volunteer drive for kit packing was organized at our Gurugram warehouse on December 18, 2021. This drive attracted over 30 volunteers, as well as teams from Sewa International and Agarwal Packers and Movers, for a total of 50 participants. More than 300 kits were packed by the volunteers during the day.

### Support from Asha Workers

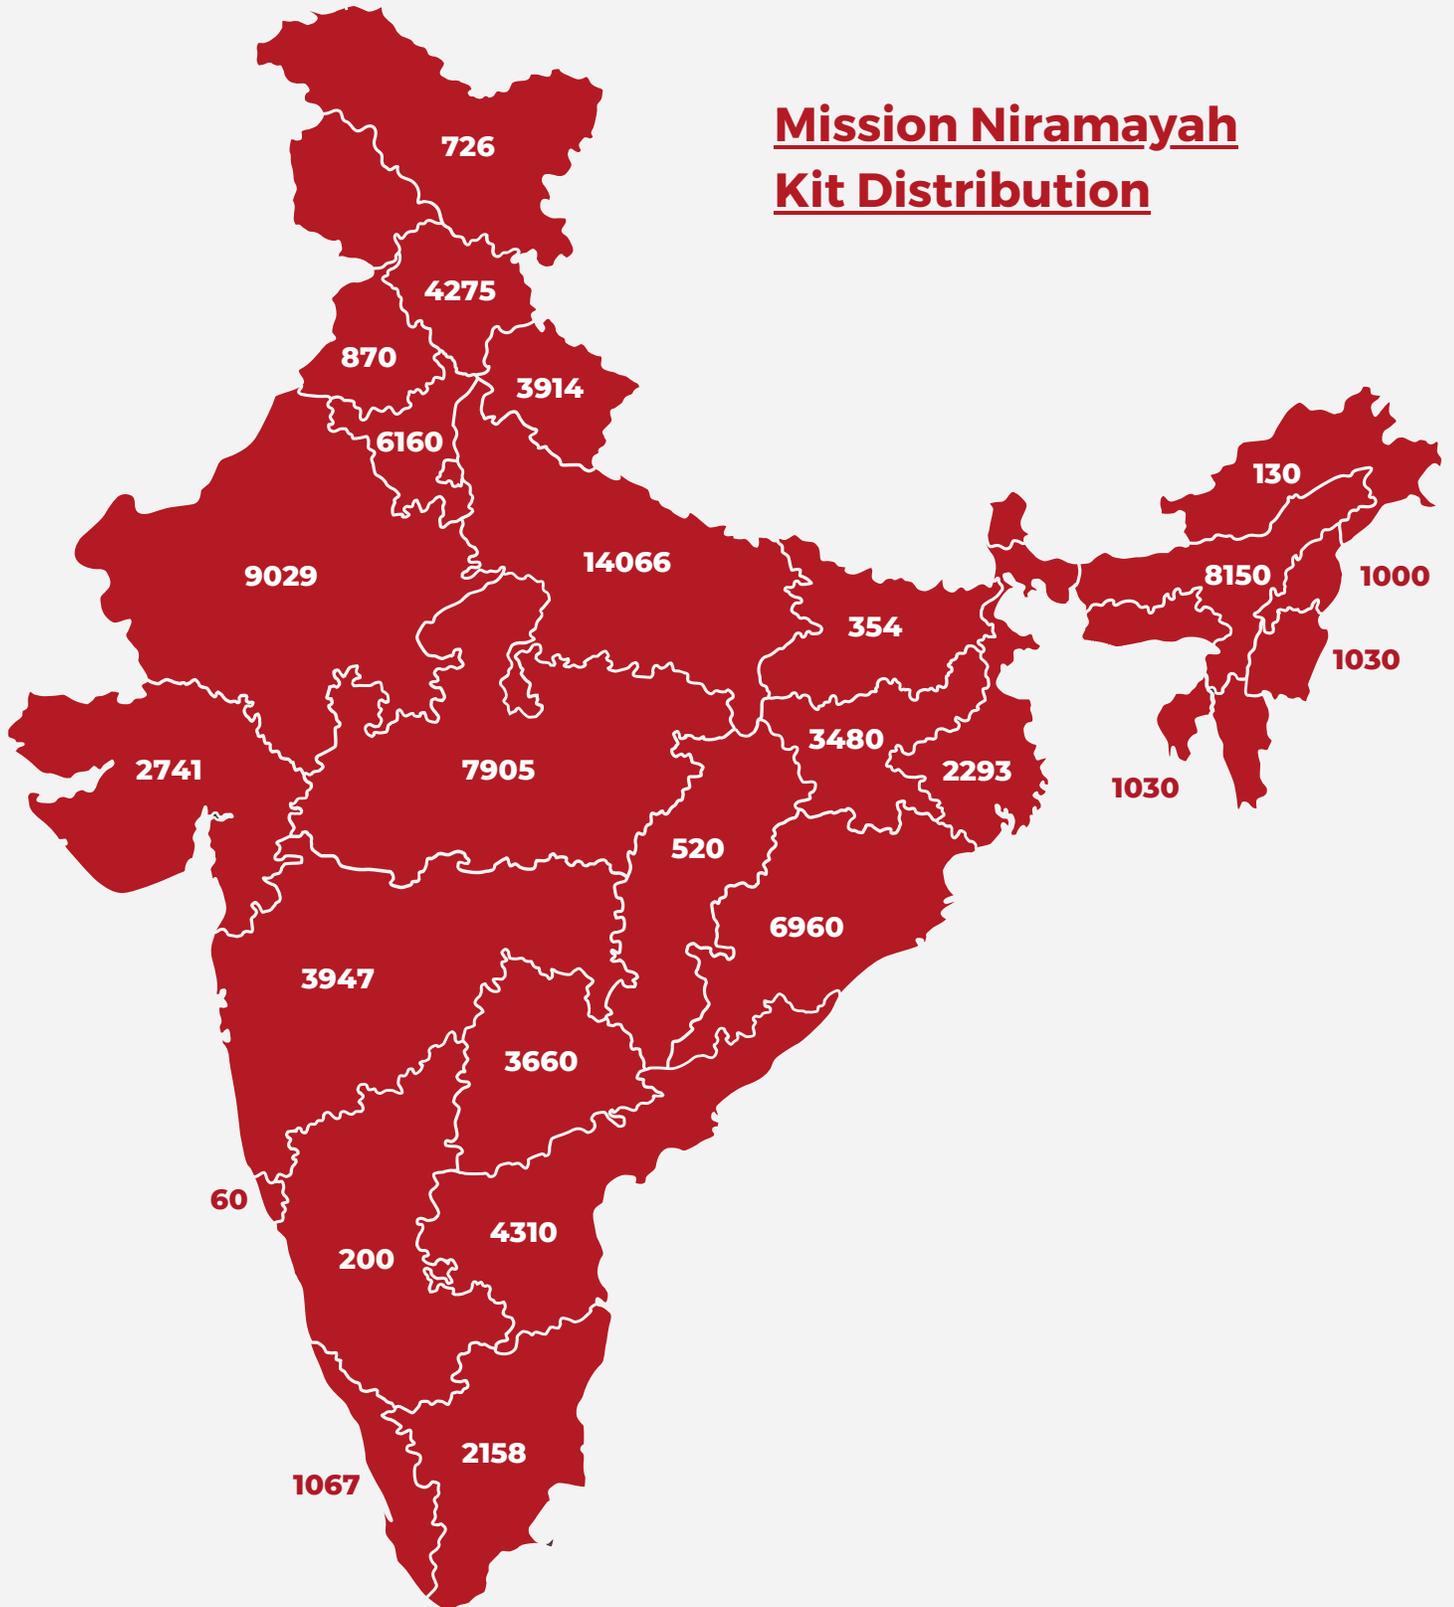

Mission Niramayah's efforts to reach the bottom level have been greatly aided by Asha workers. Over 500 ASHA workers were given Niramayah kits in states such as Rajasthan, Uttar Pradesh, and Andhra Pradesh. They were given the Niramayah kits in order to reach out to remote areas with limited access and serve the community at the grassroots level. A few of them went above and beyond to help the families affected by COVID by providing services round-the-clock.

# 95,000+

Aarogya Preraks

## Mission Niramayah Kit Distribution

## Tamil Nadu Floods

The floods in Tamil Nadu in November 2021 hit Chennai and its surrounding districts viz. Vellore, Kanchipuram, Tiruvallur, and Chengalpattu very harshly as 3000 + people lost their homes and more than 500 cattle washed away. Sewa International decided to carry out relief activities with the help of Sevabharathi Tamil Nadu as the executing partner.

*A disaster struck region primarily requires essential supplies. Sewa International with its flood relief activities in Tamil Nadu.*

**5000** Direct and **10,000** Indirect beneficiaries

**4000** Plastic mats distributed

**4000** Mosquito nets distributed

**2000** Blankets distributed

**200** Tarpaulin sheets distributed

**1200** Grocery kits distributed

## Sewa In Ukraine

The Ukraine-Russia conflict left thousands of people in a difficult position, so much so, that many had either left their homes or are in search of shelter.

Throughout this engagement, the graphic images of demolished buildings and affected people leaving cities were aired. The panic-stricken family members eagerly waited for their relatives to return home safely. They even asked their respective governments to carry out extraction.

Sewa International Europe had taken the initiative to provide food, shelter, and medicines to the people stuck there. Also, the on-ground volunteers with the help of the Indian Embassy worked towards the safe extraction of people.

*Volunteers rose to the occasion during Ukraine conflict in food and ration kits distribution.*

*Volunteers helped people crossing the border to a safe place while Ukraine was amidst unimaginable crisis.*

*Sewa installed phone and laptop charging points at many refugee camps to serve the needy.*

*Volunteers serving on the ground while their lives were at stake during Ukraine conflict.*

# EDUCATION & SKILL DEVELOPMENT

Sewa International has been actively working in the the domain of education and skill development. We believe that education and skill development are the key components of the rehabilitation of a community. As soon as a disaster hits, life and livelihood suffer a major loss. Additionally, it is children who are on the receiving end of the disaster. Ensuring that the children of the community receive adequate and relevant education and that young people have equal opportunities to make a living, is the cornerstone of our philosophy.

Projects like Sponsor A Child, adolescent group training in Uttarakhand, PMKK in Uttarakhand, digital literacy, entrepreneurship training, etc. are a few of our initiatives that are guiding the communities toward their goal.

**1120**

## PMKK (Pradhan Mantri Kaushal Kendra)

Sewa International with National Skill Development Corporation (NSDC) has been working in various verticals to empower women & youth. The idea is to ensure that either they get jobs or become self-employed. We organized training sessions for 13 key domains including beauty and wellness, healthcare, education, logistics, IT, agriculture, tourism, etc. Through this, thousands of women and youth have received training.

### Success Story:

Makani Devi age 32, is a resident of Chamba, Tehri, Uttarakhand. Her husband is a farmer and the only earning member to support a family of five. Realizing that she can also earn to support her family, she joined a self-employed tailor course at PMKK, Tehri. Within a few months, she cleared the course as she was determined to become a successful entrepreneur. She proudly owns a tailoring shop and is specialized in stitching kids' and ladies' garments. She would like to learn fashion design and aspires to open a ladies' boutique in the future. She is thankful to the entire staff of PMKK for their support.

The success stories are what keep us motivated to contribute more toward the lives of the people.

## SAC (Sponsor a Child)

Over 80,000 children in India have lost both or either of their parents as a result of COVID-19, and millions have lost their jobs. As a result, millions of children have received little or no financial support for their future education.

Sewa International initiated the "Sponsor a Child from COVID Affected Families (SaC-CAF)" program to assist children in rebuilding their lives. We provide holistic support, including financial support to complete their school education and moral support. We contribute to the children's educational expenses by directly paying their school fees.

In India, Sewa International USA's "Sponsor A Child" program aims to support underprivileged children's education in learning centres located in urban slums, rural areas, and remote tribal areas. The vast majority of SaC's children are in a hostel, orphanage, or residential school. We contributed to sponsored children's educational costs, reaching a total of 1120 children. Among those who benefit are orphans and children from low-income families whose parents work as maids, day labourers, janitors, taxi drivers, or roadside vendors.

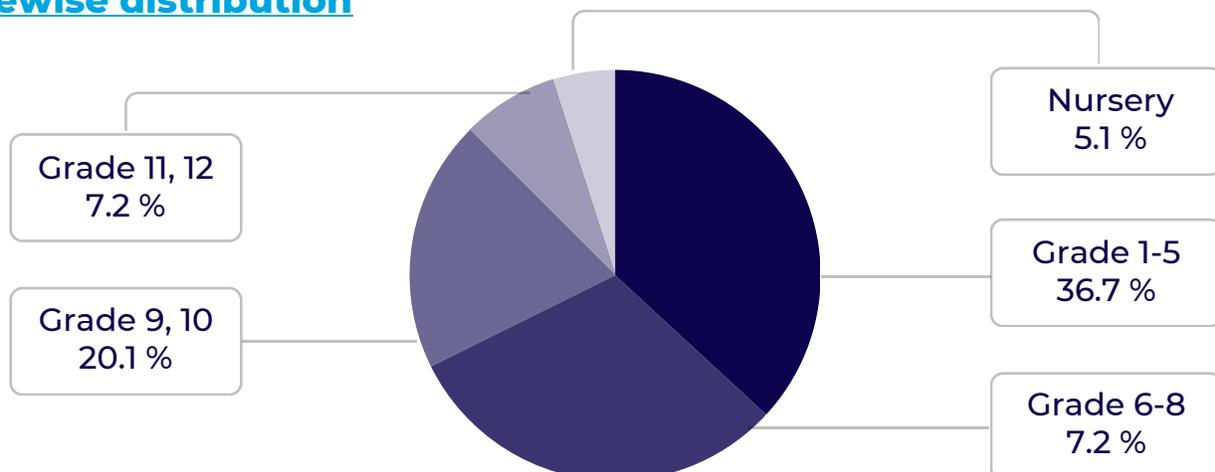

*A token of thanks from a young girl to Sewa International. We are in pursuit of helping children achieve their dreams.*

## Gradewise distribution

## Computer Centre

The computer centre aims to aid in educating young school children as well as graduate students in their respective fields. The project initiated by Sewa International and supported by Oracle serves as a means to help students reach their goals in life and become self-sufficient. The project, located at Kartikeya Vidya Kendra, Greater Noida, and Satrangi Saath NGO, is executed by conducting various activities.

**107**  
Students

*Sewa International supports computer centres as digital education is the need of the hour.*

## Scholarship for the Children of Army Personnel

Akhil Bhartiya Poorva Sainik Sewa Parishad (ABPSSP) is a non Governmental Organization, engaged in activities for the upliftment and welfare of ex-servicemen. In the year 2001, they created a trust by name of SAINIK PARIWAR KALYAN NYAS (SPKN) primarily to look after the welfare of families of ex-servicemen, especially those who sacrificed their lives during war/counterinsurgency and those who have expired. Sewa International has contributed significantly to the ex-servicemen's families since 2019. 55 students have received scholarships from the joint efforts of SPKN and Sewa International.

*Sewa International serves ex-servicemen's children by funding their education through scholarships.*

**55**  
Students

## Bal Panchayat

Aiming for self-reliance and responsibility, Bal Panchayats have fostered the feeling of taking initiative. Our Bal Panchayats have helped spread awareness amongst the children and the people living in the respective villages.

Bal Panchayat is an initiative run with the support of Oracle in Uttarakhand, where we facilitate the holistic development of children between 7-12 years of age at the community level. We aim at the social, emotional, and cognitive ability development of the children through participatory activities.

*Bal Panchayat creates leaders for tomorrow who will be self-aware to solve the future problems.*

**461**  
Children

**26**  
Bal Panchayats

## Sewa Yuva Udyami Kendra

Sewa International with the support of Oracle is working tirelessly to empower and enhance the skills of rural youths by providing them with employment opportunities. Sewa Yuva Udyami Kendra, an information technology-based model for rural enterprise development in remote villages of the Himalayas, is operated by skilled youth/groups of youths to serve the technology-based needs of the community in remote areas.

*The future of India relies on the young generation.  
Sewa Yuva Udyami Kendra strives to make this vision a reality.*

**5**  
Centres

**213**  
Trainees

Computer education, personality development courses, and basic training on hardware and software are imparted by SYUK.

Sewa International understands the need for technical education for children.

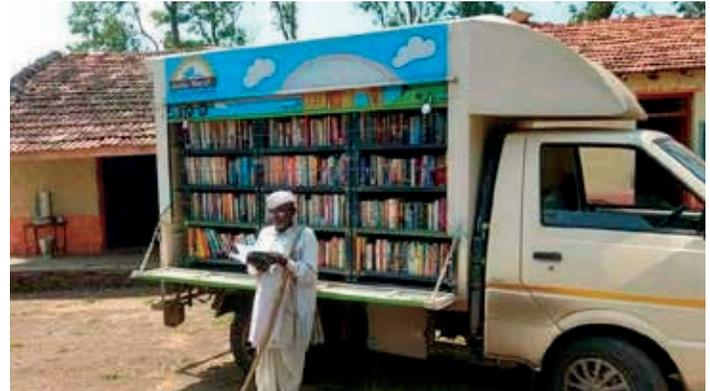

Most of the children don't grow up with access to even the most basic technology.

Empowering underprivileged young children with digital literacy skills meets a key workforce demand.

## Library on wheels

Sewa International's project Akshar Bharati is an initiative to nurture the reading habits of children between the age group of 5-15 years from underprivileged and remote areas by facilitating access to good non-academic literature. We set up libraries for such children in their localities so that the books are available when they need them the most. We strongly believe that quality reading develops the wisdom to make appropriate choices as one grows which ultimately enhances the quality of life by becoming better citizens.

Libraries on wheels provide non academic literature to inculcate the habit of reading.

## Junior Aryabhata

The 'Junior Aryabhata' online program was started in March 2016 under Sewa International's initiative Akshar Bharati in Pune, Pimpri Chinchwad, Aurangabad, and Murbad districts of Maharashtra.

The objective of the program is to reach out to children who do not have the resources to learn about the basics of computers. The program has provided them with laptops and online classes so that they can keep up with the times and excel in their respective fields in the future. As of now, the program is active in Pune, Maharashtra.

Multiple scientific sessions have also been organized in classrooms to increase the involvement of students in academics. Various school infrastructure development programs such as building school toilets, water tanks, concrete fences, classroom painting, etc. have also been done in 2021-22.

*Junior Aryabhata initiative provides laptops for online classes to the underserved children.*

**10,178**  
Students

## School Adoption

The project with the support of Oracle is aimed at capacity building of the teachers at Government Senior Secondary School, Kherki Daula, Haryana. A need assessment was carried out in 11 schools and eventually, three of them were finalized for teacher capacity building. The project was executed by conducting offline sessions by Sewa International volunteers, who engaged the teachers in various planned activities that added value to their teaching experience. The volunteers used technology-enabled tools to make the learning process easier for the teachers.

*Schools adopted by Sewa International in Delhi NCR to support the education.*

**43**  
Teachers

# HEALTHCARE

Health initiatives of Sewa International are largely focused on empowering communities to create solutions within the communities. Health camps aim at building resilience and mobile medical units work on the principle of reaching the unreached. Precisely, a mobile medical unit idea envisages a world where health is accessible to all. Therefore, the mobile van goes to far-flung areas, visiting 24 villages in a month with medicines and basic medical test facilities to serve people.

Also, projects like Mission Niramayah and SAATH work toward creating a shield for rural and urban India to fight the future wave of COVID-19 and promote telemedicine respectively.

**80+**

## **SHE** (Sanitisation, Health, and Empowerment)

Sewa International USA's project SHE has been active in Delhi, Uttar Pradesh, and Karnataka. We have distributed groceries and supplies to the front-line workers (police, firefighters, EMS, and hospital staff), as well as underprivileged families and migrant workers stranded at bus terminals during the second wave of COVID-19. Throughout 2021-22, our team responded to urgent needs by delivering items such as face masks and shields, reusable sanitary pads, water bottles, milk powder, and food. Furthermore, thanks to our local partnerships, we were able to build toilets for schools.

*Sewa International builds toilets in schools to emphasise the importance of hygiene among young girls.*

**15**  
Schools

**1040**  
Students

## **Handwash Stations**

Despite the fact that the pandemic has still not subsided totally, schools all over India have resumed. Sewa International understands the importance of sanitization. With the support of Oracle, we have built 80+ handwashing stations that benefitted 8540 children across Karnataka, as handwashing stations improve hygiene for thousands and aid in the prevention of COVID-19 transmission.

**80+**  
Handwash stations

*To curb the infectious pathogens of COVID-19 from spreading among children, Sewa International installed handwashing stations across India.*

## Menstrual Hygiene Camps

Sewa International with the support of Oracle reaches out to adolescent girls from rural, urban, and vulnerable communities to educate and raise awareness about contraception, menstrual health, and hygiene. We distributed reusable sanitary napkin kits to the girls and educated them about the myths around menstrual hygiene that pervaded the society.

**1826**  
Students

*Sewa International debunks the myths around menstrual health and hygiene.*

## WASH

Hygiene & awareness programs have become absolutely necessary, especially because of the upsurge and contagiousness of COVID-19 coupled with the ignorance of the masses about the issue. Our WASH program with the support of Oracle was introduced to spread awareness about general & menstrual hygiene in schools and slum areas.

All the participants in the awareness program learnt about women's health & hygiene along with COVID-19 prevention tips. They also receive free menstrual kits that contain a pouch with 2 reusable cloth sanitary napkins and are demonstrated how to wash & use these eco-friendly, safe, plastic-free, and low-cost napkins.

*Let's answer a few of them. There are thousands of unanswered questions when it comes to health and hygiene.*

## Sewa Aarogyam

With an aim to reach the unreached, Sewa Aarogyam, a mobile medical unit (MMU) with the support of Sewa International Australia, was started in Rajasthan and Tripura. However, it was started by Oracle in Uttarakhand. The MMU with a team of doctors and technicians visits 24 villages 24 days a month to diagnose, conduct tests, and distribute medicines. Basic facilities of blood tests, X-rays, and ECG machines are also available in MMU ensuring timely check-ups and referring patients to the hospital in case of an emergency. Sewa International envisions a disease-free Bharat and in that pursuit, if the patient can't reach the hospital, the hospital (MMU) will reach the patient.

The mobile medical unit is equipped with X-ray and ECG machines.

**35,600**  
Patients served

**72**  
Villages

A village gets a chance to avail the services of MMU once in 24 days.

Mobile Medical Unit travels in the remotest parts of India to provide basic medical facilities.

## **SAATH** (Supportive Action Across Telemedicine and Healthcare)

*A beacon of hope: People from slums receive the benefit of telemedicine by calling the general as well as specialist doctors.*

“A healthy man leads to a healthy family, which leads to a healthy society.” This is the only way to get to the new India. SAATH (Supportive Action Across Telemedicine and Healthcare), a public health initiative of Sewa International provides free access to best-in-class healthcare via telephonic and video-calling-based consultation partnered with Axa.

Our goal is to transform India into a healthcare powerhouse with world-class medical facilities. We used a variety of strategies to reach out to every citizen, including door-to-door campaigning, health camps, International Women’s Day workshops, WhatsApp mobilizations, transit media advertising, community wall painting, etc.

*IEC Campaigns include information, education, and communication campaign even if it takes door-to-door visits.*

- **Access:** Ensure free-of-cost access to an inclusive telemedicine solution across different sections of society.
- **Awareness:** Build awareness of telemedicine as a rapidly growing public health solution.
- **Acceptance:** Accelerate the acceptance of telemedicine with a high-end technology interface and empathetic medical consultations.

*Intern/Volunteer: Recruit local volunteers to help with public awareness campaigns.*

## SAATH Launch Events

On September 17, 2021, Union Minister of State for Science and Technology Jitendra Singh officially inaugurated Sewa International's "SAATH" telemedicine facility. Shyam Parande Ji, General Secretary of Sewa International, spoke to the audience about "SAATH," a step toward a new vision of providing free health care to all sections of society. He also stated that, in collaboration with several non-governmental organizations, we would establish co-facilities in schools across the country. Jitendra Singh thanked Sewa International for its telemedicine service, which has made healthcare more accessible to the poor.

On November 28, 2021, the Honourable Governor of Maharashtra, Shri Bhagat Singh Koshiyari met with the Sewa International team to launch SAATH. He personally tested the SAATH teleconsultation toll-free number-07969070050 and praised the Sewa Team for its excellent healthcare service.

On December 21, 2021, Manohar Lal Khattar Ji, Chief Minister of Haryana, conducted the second launch of SAATH and emphasized the importance of digital health solutions in the post-COVID-19 world. Manohar Lal Khattar Ji praised Sewa International's SAATH project, which would benefit people across the country. We added a new specialist medical advice via teleconsultation after a successful 5-month pilot run. We expanded the system's services to include dermatologists, orthopaedic surgeons, paediatricians, and gynaecologists. A panel of prominent speakers launched the services:

**Dr. VK Paul**, NITI Aayog member

**Dr. Dhananjay Sagdeo**, Padma Shri Awardee and Social Worker

**Dr. Sanjay K Rai**, Senior Professor at AIIMS

**Dr. Anurag Mairal**, Professor of Medicine, Stanford University

**Dr. Alfred Beil**, Chief Medical Officer, AXA Group

**Ms. Odette Cesari**, Head of Business Development, AXA Life and Health International Solutions

**Derek Nazareth**, Head of Global Operations and Country Head, AXA XL India

## Aarogyam+

Sewa International has set up Aarogyam+ (E-Health centres) with Oracle's support at three locations: Haapla (Chamoli), Makkumath, & Kotma (Rudraprayag) of Uttarakhand. Health services such as sugar tests, blood pressure, dressing of wounds, and nebulizer facility are available at these centres. Other than that, health care products such as various tonics with immense nutritional value and supplements are also available at these centres for the locals.

**1049**  
Patients

**3**  
Health centres

*The strength of a health centre lies with the people that are associated with it. Sewa ensures a medical specialist along with other trained staff for best medical facilities.*

## SHAPE (Strengthening Healthcare Amenities in Public-health Ecosystem)

Sewa International with the support of Sewa International USA and the US-India Strategic Partnership Forum (USISPF) aims to improve the quality of healthcare in the Surendranagar and Morbi districts of Gujarat. Deprived of basic healthcare facilities, the people of these districts are helpless in case of medical emergencies. The primary health centres are either short of staff or ill-equipped.

**9**

*Need assessment was done before launching SHAPE as the community struggles with basic healthcare infrastructure.*

## Health Camps

Sewa International with the support of Oracle has set up numerous health camps in Maharashtra. The camps were set up with the objective of comprehensive health check-ups for people in urban slums, villages, tribal areas, and vulnerable communities. General health check-ups, blood pressure, random sugar & haemoglobin, and a special focus on women and the elderly are the key attributes of the health camps. The prime focus was laid upon ensuring doorstep health diagnostic facilities for the vulnerable communities in the COVID-19 affected rural/ tribal/urban slum regions.

**9950**

**96**  
Health camps

Regular health camps ensures whether a community is exposed to certain diseases.

The pattern of ailments observed through health camps can be used in devising treatment methods.

## Health Awareness Webinar Series

### Understanding the scenario of COVID 19:

The session organized by Sewa International was taken by Dr. RP Bhatt. He is the ex-director-general of health, in Uttarakhand. He interacted with frontline warriors, adolescent girls, teachers, students, and societal leaders to spread awareness on healthy habits to opt for during COVID-19. The rumors regarding the 3rd wave of COVID-19 were busted throughout the session.

Sewa International leveraged the opportunity of online webinar sessions and informed hundreds about COVID-19.

### Importance of a healthy diet :

The session was taken by Smt. Rajeshwari Kaitheth, a renowned dietician and social activist. She shared the healthy ways of cooking local food of Uttarakhand.

### Ensuring well-being pre, during, and post COVID-19:

Sanchita Jain is a professional counsellor, who discussed the Mental health conditions pre, during, and post COVID. She discussed the various mental states and the possible triggering thoughts and solutions for each state.

## Kalam Polyclinic

Sewa International Bharat with Sewa International USA and Kalam Foundation has set up a 10-bed polyclinic and isolation centre in the old city of Hyderabad and Telangana. It was set up to offer basic consultation and medical treatments to needy people. Subsequently, we set up medical check-up camps and a door-to-door awareness drive. This polyclinic has proved a boon to the local people.

## Aarogya - RIWATCH

AAROGYA - Ram Gehani Centre for Nature Cure is situated at RIWATCH Campus Roing, Lower Dibang Valley, Arunachal Pradesh. It was inaugurated by Hon'ble Dy. Chief Minister of Arunachal Pradesh, Shri Chowna Mein and Shri Alo Libang, Hon'ble Minister for Health and Family Welfare, Arunachal Pradesh, and a galaxy of dignitaries of national and international importance on 10th April 2021. A double-storeyed building having eight rooms with all basic facilities has been supported by Sewa International.

*Finding the cure for ailments through ancient Indian medical practices.*

## Adolescent Health Program

Girls put less focus on their health mostly because of a lack of proper awareness. To spread awareness, Sewa International with Oracle has set up 50 Adolescent Girls' Groups in Chamoli and Rudraprayag districts of Uttarakhand where regular sensitization activities related to health are organized. We also hold mental health counselling sessions with them to understand their psychological needs.

# 50

Adolescent Groups

# 198

*Young girls learn the basics of their adolescence needs through sessions and activities.*

## Sewa Swasthya Samiti

To cater to the basic healthcare needs of the rural populace, village-level health groups have been formed in 40 villages in the Rudraprayag and Chamoli districts of Uttarakhand with the support of Oracle. Comprising only women, the prime focus of the group members is to support local people in emergencies and provide first aid when necessary. Every month the group members sit together and discuss the health scenario of their respective villages.

**298**  
Meetings

sessions

SHGs are trained to keep their basic healthcare needs fulfilled.

## Nutrition Training

National Nutrition Mission, National Food Security Mission, Zero hunger Program, and Food Fortification – are initiatives aimed at solving the nutrition issues in India. Still, the problem persists as the solutions available on the ground are often overlooked.

Sewa International through its Nutrition Training Camps in Uttarakhand trained local people to cook a variety of nutritious food with available food grains such as Mandua Pan Cake, Dhokla, Soybean Chila, Vegetable Salad, Chana Chat, etc. These foods are full of nutrients and keep one's nutrition in balance. Since home-cooked food is nutritious, it best helps children to be healthy. The project is supported by Oracle.

Essential nutrients from the diet will prevent various diseases.

# LIVELIHOOD

Sewa International's livelihood projects are initiated after assessing the needs of the communities. Programs such as Tailoring, Mahila Jyoti, wool craft, etc. are aimed at enhancing the capabilities of the community to make a living. Projects like Micro-enterprises, in which small processing units are installed, are based on providing livelihood opportunities to an individual which in turn benefits a community. Our interventions also aim at creating an environment for entrepreneurial skills to flourish.

## Community Driven Micro-enterprises

Microenterprise units are aimed at providing sustainable livelihood opportunities to the local people. Sewa International runs the initiative with the support of Oracle. Under this initiative, 5 portable rice mills, 2 pulse processing mills, 1 cashew processing unit, egg settler, and 2 hatching units in Maharashtra, 2 Jaggery processing units, and 1 tamarind processing unit (2 machines) in Karnataka have been established in accordance with the local needs. Since the second wave of COVID-19, people have migrated back to their homes and micro-enterprise units have helped them to make a living.

**14**

New micro-enterprises

**700**

Beneficiaries

*A small unit of micro enterprises can atleast support 2-3 families.*

## Model Migrant Village

Sewa International with the support of Oracle is developing Model Migrant Villages to integrate the skills of the migrant community with local potential in a participatory manner. This will also result in increased opportunities for rural income generation activities and create a model for other migrants to return to their respective villages. 7 villages have been selected to implement the project where the migrant community is involved in making designer products of ringal (bamboo), fruit processing, and performing with traditional band equipment. We have provided the necessary tools and equipment to the respective community as per their needs.

**50**

Trainees

*Sewa International identifies the needs and capacities of the communities to generate livelihood.*

## Tailoring Centre

Sewa International with the support of Oracle is training women in tailoring to make them self-sufficient by establishing their enterprise. Free tailoring classes were conducted across 4 locations in Karnataka. Each batch underwent an exhaustive three-month training program to learn techniques of cutting & stitching producing masks, bags, sanitary napkins, pouches, dresses, and other saleable products. This would give them an opportunity to utilize their skills and talent to earn a living.

**500**

*Tailoring centres are making women self sustained and entrepreneurs.*

## Women artisans

Sewa International has been working for the empowerment of women artisans in Kutch. Post-earthquake (2001) in Bhuj, Gujarat, Sewa has been extensively engaged in the upliftment of poor people especially women through various social welfare programs as well as enterprising activities. The description of the major activities includes running Sewa International Design & Development Centre (SIDDC) for value-added products, an entrepreneur development program for promoting self-employment, exposure visits to new areas, and technical training programs to teach new skills.

**72**  
Trainees

*The world is not unknown to the Kutch craft. Sewa International facilitates women of Kutch to earn livelihood by honing their skills.*

## Sewa Mahila Jyoti

Sewa Mahila Jyoti is initiated to empower local women of Uttarakhand through livelihood training. Women of Uttarakhand have been endowed with a knack for creating products from local arts and crafts. With a little training and management, the products are ready to be sold in the markets.

The project which is supported by Oracle has encouraged local arts and crafts like knitting, natural dyeing, ringal (Bamboo) products by promoting and marketing them to create their demand. From providing the raw material to making products, and eventually marketing them online or through the exhibition, thus creating a whole supply channel.

Tailoring centres are making women self sustained and entrepreneurs.

## Wool Craft

The Bhotiyas are high-altitude nomadic people of the Himalayan region. Since ancient times, their primary occupation was sheep and goat rearing. They are exceptionally good at making traditional woollens and have enjoyed a monopoly in the business for quite some time as their high-quality products are long-lasting. ONGC Foundation with Sewa International has initiated the purchasing process of table looms, raw wool, and spinning wheels for organizing more design and development training with the women of the Bhotiya Community

**14**

## SHE-CAF (Sanitisation, Health, and Empowerment - Covid Affected Families)

The pandemic claimed a large number of lives in India and around the world. It affected people not only through virus infection but also through economic and mental distress. Many women lost their spouses leaving them traumatized for life and financially crippled. Sewa International with Sewa International USA actively supports women who want to be self-employed and earn a living in order to have a sense of self-identity. 736 have completed the training and become self-employed. Initiatives like SHE-CAF which runs in 12 states of India will raise awareness and send ripples throughout society, empowering women who have suffered significant losses and are ready to reclaim control of their lives.

**736**

Women trainees

SHE-CAF is actively working to support COVID affected families by providing them a chance to earn a living.

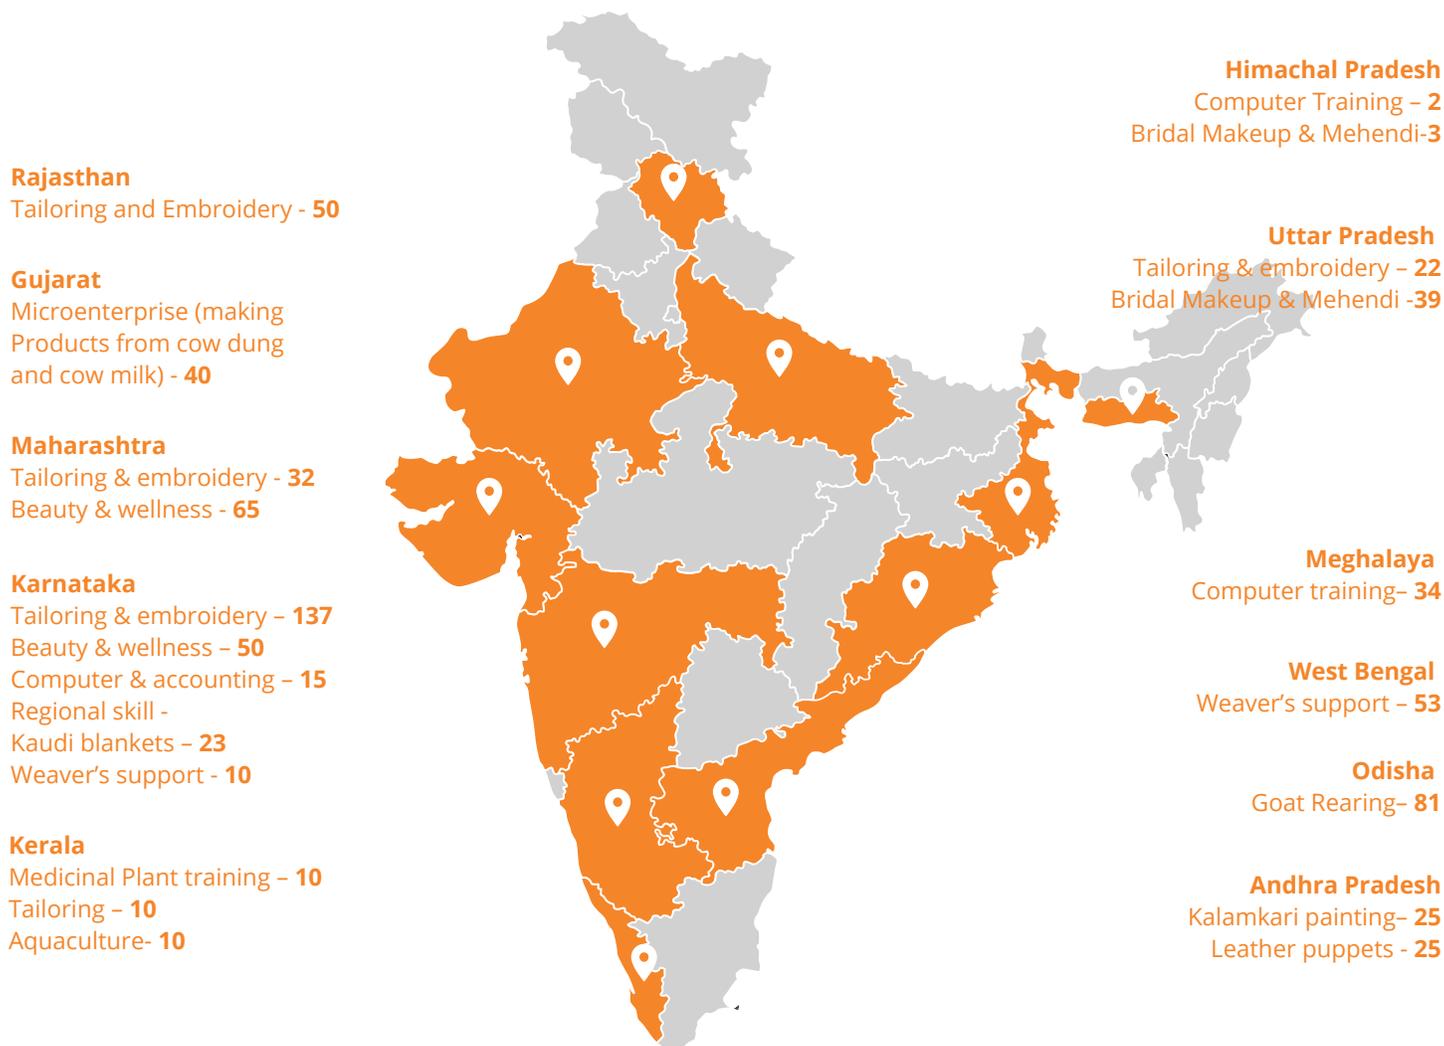

## SHE-CAF Training and Placements:

- Tailoring
- Computer centre
- Tally & Accounting
- Beauty & wellness
- Makeup Artist course
- Regional skill development programs such as Kasuti & Nakshi, Kantha embroidery, Kaudi blankets, Kalamkari, leather puppets, etc.
- Weaver empowerment
- Livestock rearing
- Microenterprise setup- papads & pickles, jam, sweets & bakery, making products from cow milk and cow dung.

Training sessions in multiple disciplines help women to hone their skills.

## Key Statistics of Completed Trainings PAN India

# AGRICULTURE

The diverse nature of the land and agro-climatic zones make India a country with rich and varied crop patterns. Sewa International is primarily working in Uttarakhand and Tripura in the domain of agriculture. Uttarakhand has initiatives like community farming, HARELA (organic farming), seed bank, and Himsampada-a farmers' producer company that caters to the needs of the local community. Integrated Fish farming in Tripura focuses on the goal to provide opportunities to the local people wherein people are provided with a pond, fingerlings, and piglets. The locals are trained in pig rearing and other aspects of fish farming to obtain sustainable produce.

**174**

Farmers benefitted through Seed Bank

**1537**

*Sewa International provides farmers of Tripura with fresh fingerlings and training to generate an income.*

### Activities:

- 100 beneficiaries were given 10 kg of lime to apply in the pond.
- Financial assistance to individual fish farmers in the form of fingerlings, Agri-horticulture samplings, and piglet donations.
- Vegetable seeds of Brinjal, Bottle gourd, Pumpkin and Coepea beans were also distributed among all the beneficiaries.
- Spade, cutter, and bamboo basket were given during the month of January 2022.
- Supported farmers in network building and market linkages.

*A volunteer talking to a farmer and explaining him the benefits of Integrated Fish Farming.*

## Seed Bank

Developing Seed Banks and empowering communities to work as quality seed grower is one of the key initiatives that can help sustain Himalayan agriculture. Thus, our major focus lies in producing quality organic seeds which are unique to the Himalayan agro-climatic zone. This will also prove to be an effort to preserve and promote the traditional Himalayan crops. The project initiated by Sewa International has been running with the support of Oracle.

Commercial seeds -

- **Onion and Garlic**

Traditional seeds-

- **Koni**
- **Bhanjira**
- **Lal Dhan**
- **China**
- **Jhangora**
- **Manduwa**

Apart from procuring seeds, it is crucial to have training sessions for using seeds judiciously.

**174**  
Farmers

**145**  
KG of seeds  
distributed

The benefits are multifold: Production of quality organic seeds and farmers can procure seeds at a much cheaper rate.

## **HARELA** (Himalayan Agriculture Rejuvenation and Enhancement of Livelihood for Agripreneurs)

HARELA is aimed at making organic farming prevalent in Uttarakhand with the support of ONGC. Organic farming reduces soil erosion, decreases nitrate leaching into groundwater and surface water, and recycles animal wastes back into the farm, the effect of which is multifold and futuristic.

Harela follows 3T-s for functionality, i.e. Training, Tools, and Technology. A number of traditional farming practices have been restored. Direct marketing along with other practices such as organic seed sowing, and the replacement of human labour with technology has helped farmers gain profits.

**73**  
Training  
sessions

**1537**

*Organic farming is labour intensive and requires constant vigilance.*

*Hands-on training is the key when it comes to organic farming. Farmers learn the best practices needed to make organic farming a successful pursuit.*

## **SKSK** (Sewa Krishi Sansadhan Kendra)

The greatest challenge for farmers of the Himalayas is the lack of innovation in designing farm machinery according to their needs. The aim of our Sewa Krishi Sansadhan Kendra (SKSK) is to provide cutting-edge farming tools and equipment to rural farmers so that they can get the best out of their agricultural land.

To support the farmers, Sewa International and Oracle have set up nine (9) Krishi Sansadhan Kendra in Urgam, Badagaon, and Tapovan, Uttarakhand. These centres are equipped with tools and farm machinery such as a power weeder, grass-cutter, chain saw, plough, knapsack sprayer, spade, hoe, sickle, garden rack, hand rack, water sprinkler, multipurpose scissors, and high-yield seeds. Since the inception of SKSK centres, local farmers have started using the equipment and obtained exceptional results.

*Training sessions help farmers gauge the needs and precise implementation of the equipment.*

*Agriculture has come a long way. Farmers can rent tools from SKSK centres to enhance productivity.*

## Community Farming

Community Farming aims at capacity building of the Himalayan Farmers for sustainable development of agriculture. As small landowners join their lands and receive training & tools along with infrastructure development, their farm produce boosts exponentially by doubling their income in two years. The program is currently active in many clusters such as Tapovan, Urgam, Pokhri, Simli, etc. in Uttarakhand with the support of VAGF (Vaibhav Ashok Goyal Foundation). Fencing, electric shocker, farming tools, and water tank have been distributed to set up the community farm.

Small landowners can now reap the benefits from joining their lands for farming.

# Environmental Action

Climate change is posing a threat to all life on earth. Much of it can be curbed or delayed by following sustainable practices and living in harmony with nature. Needless to say that floods, droughts, storms, heat waves, and increased sea levels are consequences of irresponsible human activities.

Sewa International's initiatives PRAWAH is aimed at rejuvenating the Himalayan river. This initiative covers mobilization drives, awareness camps, and cleanliness drives to educate the masses about the importance of the environment. Similarly, the Arecnut project in Tripura is based on making disposable plates from the leaves of the Arecanut plant. The sustainable model aims at making the world a better place by providing employment to the local people.

**559**

Arecanut  
plant

## Arecanut Plant

The best out of the waste project was commenced in North Tripura keeping in mind that Arecanut trees are found in high numbers there. However, sheaths are left unused after extracting nuts from them. We have installed an Arecanut plant to produce disposable plates from sheaths. The idea is to utilize these sheaths to transform them into some useful material that is eco-friendly as well. The manufacturing waste of Arecanut sheaths may also be used for vermicompost, dry fodder for animals, biofuel, etc.

**1806**  
Products

## PRAWAH (Participatory Rejuvenation, Afforestation, & Waste-management Along Himalayan-springs)

Himalayan rivers account for nearly two-thirds of India's national river flows and 43 per cent of India's population depends on Ganga for their water needs. Bearing in mind the loss of life and livelihood an ecological imbalance can incite due to the overexploitation of rivers, Sewa International has been running PRAWAH project to rejuvenate the Himalayan rivers. Community mobilization, training, and awareness camps are indispensable parts of PRAWAH.

# Events

The events organised by Sewa International are based on providing a platform to the people who come from the de- development sector and served people in different capacities. In International Sewa Baithak, participants joined from all over the world to highlight the contribution made by their Sewa units. Along with that, we started Sewa Samwaad to invite people associated with the development sector and share their stories. Sewa International organized two conferences in the year 2021-22. Conferences on disaster management and human trafficking were aimed at collaboration, networking, and spreading awareness among the masses.

Fyunli Kauthig, our annual event is celebrated on International women's day. The participation of women of Uttarakhand in Fyunli Kauthig increases every year and their presence is the testimony of our success which is owed to the women of Uttarakhand for their perseverance and passion.

**3,56,832**

## ISB 2021 (International Sewa Baithak)

International Sewa Baithak 2021 is the seventh triennial meet for the global Sewa movement to come together, reflect, and plan the journey ahead. The ISB 2021 was a great enhancement to our knowledge, skills, and values. The meeting was a combination of discourse on skill development and brain-storming sessions. 2021 Baithak was organized with the mission of Sewa with 33 countries and more than 250 participants. This 9-day-long Baithak was an effort to inculcate the idea of Sewa among the youth and streamline the idea of Sewa, growth, and development of an individual in a country. The purpose of the Baithak was to discuss the role of Sewa International in the global development narrative, reflect on the actions and achievements of all the participating countries, and also revisit and analyze the journey since the last Baithak. All 33 countries shared their respective work done in the last 3 years, focus areas, and success stories. They also shared their outline of a plan of action for the next 2 years. ISB 2021 focussed on developing the idea of Sewa further, providing a thought and action framework on the same.

"Alone we can do so little; together we can do so much."  
-Helen Keller

## Sewa Samwaad

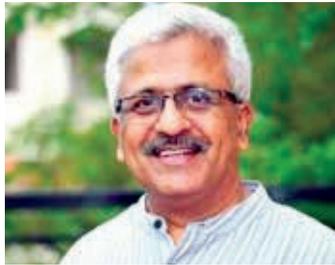

One learns as one goes and one unlearns as one grows. The aim of Sewa Samwaad is to understand the stories behind the bright spots of change, develop an image of change, what it takes to build a community and a good social project, and innovate by understanding the knowledge, temperament, and skills required to build on a development project.

Sewa Samwaad was initiated in the month of July. Various stalwarts of the development sector have shared their experiences and learnings from their journey of change until now. Different NGOs, students of various institutions, and other budding changemakers of the society.

## Umeed ke Sur

The death tally in India due to COVID-19 crossed 300,000. COVID19 had spread into the villages of Uttarakhand and even with the decentralised coronavirus policy, it was difficult to get hold of this infection in remote areas which already had inadequate healthcare infrastructure. Sewa International, committed to its mission of serving humanity in distress worked in an all-inclusive, integrated manner with various stakeholders within and outside India to counter the immediate impact of the pandemic. The traumatic second wave showed that there is a need for more resilient, agile, innovative, and collaborative systems which can hold the rural healthcare infrastructure.

Believing that collaboration is the key in our battle with the pandemic, Sewa International had organised an online fundraiser concert with famous singer Jubin Nautiyal titled: '**Help Himalayas Breathe**'. The outreach of the event was done by Jubin himself through different channels of social media.

The concert video was released on world music day by Jubin Nautiyal on youtube.

*Jubin Nautiyal, famous bollywood singer, performing live for a noble cause.*

## Fyunli Kauthig

To celebrate womanhood, the 7th edition of Fyunli Kauthig (International Women's Day) was held on 8th March at eight places in the Chamoli and Rudraprayag districts of Uttarakhand with the support of Oracle. The Chief Guest of the program

was Pragna Parande, a member of the Central Child Protection Commission and a senior advocate of the Supreme Court, Dr. Harshwanti Bisht, a famous mountaineer and Arjuna Awardee, and Poonam Rawat Hahne, Founder of Fernweh Travels. Sewa International honoured 16 women for their exemplary work in the fields of environment conservation, women empowerment, education, health, public welfare, and sports with shawls, mementoes, and citations. Around 500 women panchayat representatives belonging to women's self-help groups as well as Sewa International volunteers actively participated in the Fyunli Kauthig celebration.

*International Women's day is celebrated as Fyunli Kauthig every year by Sewa International.*

## **CHETNA** (Conference on Human Exploitation and Trafficking for National Awareness)

The two-day conference was organized on the 4th and 5th March 2022 in New Delhi with the aim of reflecting on India's efforts in combatting human trafficking. This included identifying its contemporary challenges under the aegis of Azaadi Ka Amrit Mahotsav. The two days comprised incisive and insightful sessions on various issues of Human Trafficking which included organ trafficking, child marriage, online trafficking, and rehabilitation interventions during COVID-19. More than 100 participants and 30 distinguished panellists graced the event with their presence. Stakeholders included govt officials, police, legal fraternity, media, private sector, first responders, civil society leaders, researchers, ground implementers, policymakers, etc. The conference launched our report on online trafficking titled 'Hidden Tsunami: Digital Trafficking in India' which focused on Technology facilitated Trafficking and responsibility of online platforms in India.

## Conference on Disaster Management

The Conference on Disaster Management organised on 28th, 29th and 30th March 2022 under the aegis of Azaadi Ka Amrit Mahotsav along with our partners VESIM, Ministry of Road, Transport and Highways, Oracle and the Indian Council of Social Science Research (ICSSR). The conference encouraged dialogue on the contemporary challenges confronted by stakeholders and their evolving role in the disaster management ecosystem. The conference provided a platform to discuss the extraordinary wealth of knowledge and practical abilities that exists today about disaster risk reduction. It was an opportunity for the stakeholders to redefine disaster management strategies. A consensus was built on a disaster management framework which integrated technology, supported capacity building and facilitated community resilience through traditional knowledge mapping. The conference witnessed the participation of 40 panellists, 290 participants, more than 20 organisations, and 110 recommendations.

### Chief Guests:

- **Sh. Santosh Gangwar**, Members of Parliament, Lok Sabha
- **Sh. Pratap Chandra Sarangi**, Members of Parliament, Lok Sabha

### Guest of Honour:

- **Narendra Bundela**, Inspector General, NDRF
- **Lt Gen Syed Ata Hasnain (Retd)**, Member, NDMA

### Keynote Speakers

- **Prof. Sachin Chaturvedi**, Director General, RIS
- **Dr G. Satheesh Reddy**, Chairman, DRDO

### Chairpersons

- **Dr. Anil K Gupta**, Director of COEs & Projects, Head of Division, International Cooperation, NIDM
- **Dr. Suresh Jain**, Founder, Acylin Therapeutics
- **Sh. Hari Babu Srivastava**, Director General (Technology Management), DRDO
- **Dr. Indira Khurana**, Vice Chairperson, Tarun Bharat Sangh
- **Maj Gen Ajay Seth**, VSM (Retd.)

**ANI**  
Santosh Gangwar lauds work of social organisations, says inner feeling inspires people  
Updated: Mar 28, 2022 22:33 IST

New Delhi [India], March 28 (ANI): Former Union Minister Santosh Gangwar on Monday lauded the role of civil society during the COVID-19 crisis and of social organisations during difficulties faced by people.

Gangwar, BJP MP from Bareilly, who was the chief guest at a conference on disaster management in Delhi organised by Sewa International, lauded the work done by the organisation for the welfare of society.

He said government organisations work in a particular way and social organisations in a different way and there are several things that can be learnt.
